LOVE FOR NEPAL
Live to Love International is a humanitarian charity supporting the people of the Himalayan region by helping to improve their quality of life. Our efforts are currently particularly focused on responding to the earthquake disaster in Nepal.

The Himalayan mountain range cradles many cultures, ethnicities and traditions and is a significant source of agriculture, energy, water and tourism for the nations they occupy. Right now the region is grappling with the damage from the magnitude 7.8 earthquake that hit the heart of Nepal on 25th April killing over 9,000 people and injuring another 17,000. This earthquake, and the succeeding magnitude 7.3 quake that followed on 12th May devastated the whole region, leaving millions of people displaced.

By working with established local volunteers, Live to Love is able to reach the most vulnerable communities in the remote regions – bringing hope and aid.

Mudslides, an early monsoon season and badly damaged infrastructure make it difficult and challenging to supply aid to support the rebuilding process. However, with the help of our volunteers and the local community leaders, we are removing thousands of tons of debris from collapsed buildings, delivering more than 3,000 units of medical supplies and providing emergency relief and comfort.

THE SITUATION:

- 4.2 million people are in need of Water, Sanitation and Hygiene (WASH) services
- 80% of houses are destroyed or damaged with 2.4 million people displaced
- Women, children, the elderly and ethnic minorities are the most vulnerable
Live to Love provides relief aid in the aftermath of natural disasters as first responders. We also help to rebuild lives and communities long after the initial disaster.

We have distributed relief supplies in nine of the worst affected areas: Sidhupalchok, Rasuwa, Ramechhab, Dhading, Dolkha, Nuwakot, Kavrepalanchok and Kathmandu.

In this region many of the men must seek work away from their villages, so women, children and the elderly have to cope with recovery and suffer the most from damaged infrastructure.

Live to Love is building community halls to provide safe shelter and access to clean water and sanitation in order to combat widespread disease. We are also providing hygiene materials and nutrition-rich food to mitigate health risks in the aftermath of the disaster.

**LIVE TO LOVE PROVIDES:**
- Distribution of relief items
- Construction of temporary shelters
- Disaster risk mitigation
- WASH services
REBUILDING

Live to Love is rebuilding homes for over 1,000 villagers throughout Ramkot. Designed by experts to UN-approved guidelines, all the houses are built in collaboration with the individuals and families who will occupy them, ensuring that the indigenous culture can permeate the work of engineers and aid workers on the ground.

Two of Live to Love’s global ambassadors, actresses Michelle Yeoh and Susan Sarandon, visited Nepal immediately after the disaster. They continue to help maintain awareness of the continuing urgency of the situation and provide hope to the survivors of this beloved region.

LIVE TO LOVE:

- Rebuilds homes and lives
- Revives local economies and communities

JOIN US

Help us, help Nepal. Your generosity goes a long way.

- £16,000 builds a community hall that houses 150 people whilst their new homes are being built.
- £2,000 rebuilds a home to UN approved guidelines.
- £500 transports aid to remote villages
- £65 purchases first aid kits and medical supplies
- £50 offers one-month food supplies for a family of six

Thank you for your support.
